Chorus:

And when I get to that peaceful harbour
That in my dreams I know so well
If I can get there, if it is really there
Then surely we shall meet again.

1. Oh this world is so full of mystery
And there's magic all around
All through my life I will be searching
For a secret never to be found

Chorus:

2. Through deepest forests and over mountains
And all along the lonely shore
Down gloomy streets of distant cities
I will search for ever more

Chorus:

3. Through the mist above the hilltops
There floats a song on the wind
I thought I heard the sweetest harmonies
I thought I heard the angels sing.

Chorus:
